The Bohn Syphon system of ventilation provides constant air circulation in the Refrigerator. This means a continual supply of moving, dry, cold, clean air. This keeps the temperature down, avoids mixing of odors and reduces ice consumption.

This is why practically every dining car in the land has a Bohn Syphon Refrigerator in its kitchen—a severe test of the efficiency of a Refrigerator. It also explains why so many railroads use the Bohn system of refrigeration, and why so many hospitals, clubs, hotels, institutions and the U. S. battleships use Bohn Syphon Refrigerators.

Our Last Special Sale This Year—Last Week!

All Special Sale Prices Will Be Withdrawn at 1 P. M. Saturday, Sept. 2

An Appetizing Refrigerator

A very large Ice Company says: "Snowy porcelain and clean, crystal-clear ice make just looking into your Refrigerator an appetizer. And you can be sure that food kept in a well-made, well-iced Refrigerator is bound to be not only palate-delighting, because its freshness and natural flavor have been preserved, but wholesome, because it has been kept at an even temperature."

The Bohn Syphon Refrigerator, at a lower ice cost than any other Refrigerator made, maintains an average temperature of 40 to 45 degrees pronounced by experts to be 100% efficient.

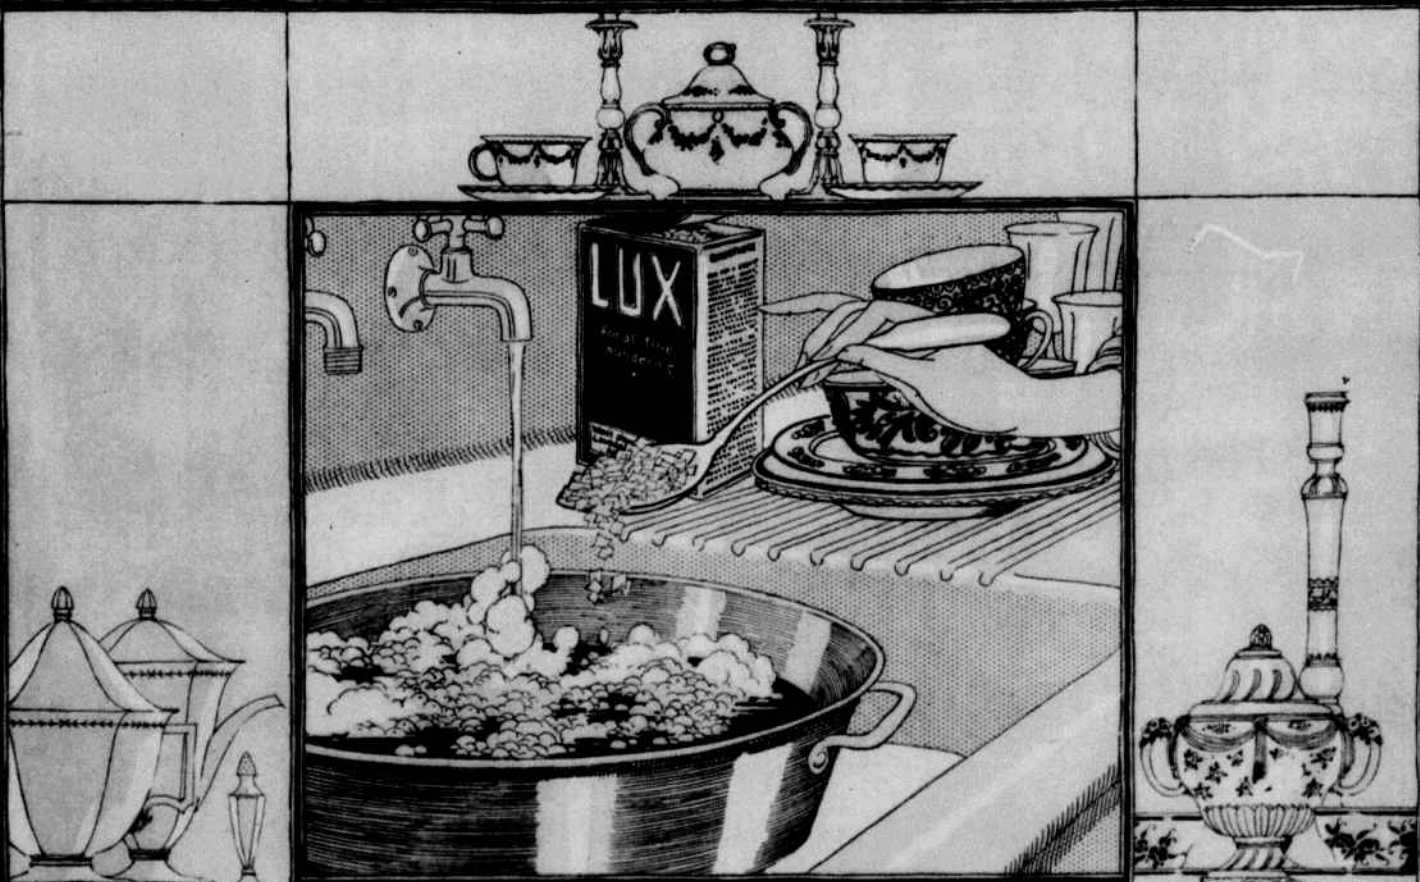

If you cannot call, write for illustrated catalog and Special Sale price list.

JUST ONE TABLESPOON

*A single package does 44 washings
—all the dishes for more than 2 weeks*

For the average family of 4 or 5 persons just one tablespoonful of Lux—a whisk in the hot water—and you have the richest, most cleansing lather you have ever had for your dishes.

Women themselves discovered this use for Lux. Women who for years had been getting such satisfaction from Lux for silks and woolsens tried it for washing dishes.

Thousands of letters have come in to us saying that Lux suds leave your china beautifully clean and at no cost to your hands, and asking us why we never mentioned it.

Lux contains no free alkali. It is as gentle upon the skin as fine toilet soap.

Begin using Lux today for dishwashing. One box will last 44 dish-washings—more than two weeks. Lever Bros. Co., Cambridge, Mass.

Lux won't redden or coarsen the hands. It rids them for good of that three-times-a-day-in-the-dish-pan look

Lux leaves your glassware sparkling, without a trace of soapy film—your silver lustrous, your china spotlessly clean
